

LEN-600 Series

LEN-600 is a high phosphorus, Electroless Nickel bath approved by the Major Oil Industry for down hole tools. The process replaces many coatings including Stainless Steel.

Meets or Exceeds All Major Oil Industry Standards	✓
Excellent Corrosion Resistance	✓
Long Wear & Life	✓
60,000 psi Bond for Adhesion	✓
Homogeneous & Amorphous Plating - No Grinding Needed	✓

With LEN-600 Plating

Without LEN-600 Plating

At LeKem we know time is money. With our process we'll save you both. With as little as .0004 tenths of plating and up to .005, we've got you covered. LEN-600 process is in compression up to 60,000 psi bond, can meet 1,000 hours salt spray and is 48-52 RC (68 RC heat treated) as plated.

We will plate prototypes for you, or setup a line in your plant, just give us a call at 866-932-5536.

We also offer a free trial bath (up to 1 MTO), or send us a sample and we'll plate it for free.
